DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statements filed on 1/31/05 and 2/02/05 have been considered.

Allowable Subject Matter

2. Claims 1, 3-8, 10 & 11 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a handheld telephone set that detects whether a dual-ear type or single-ear type earphone is connected to the telephone set, an amplifier for amplifying ambient sound detected by a microphone to be delivered to the earphone by superposing the signals, a controller for increasing the gain of the ambient sound if a dual-ear type earphone is connected to the telephone set and decreasing the gain of the ambient sound if a single-ear type earphone is connected to the telephone set.

Applicant's independent claim 1 recites, *inter alia*, a handheld telephone set with a structure as defined in the specification including a control device for adjusting a signal level of an ambient sound output from an amplifier according to an output of the detecting means, wherein a dual-ear mount type earphone is mounted to the telephone set main body unit, a gain of the amplifier is increased to increase the signal level of the

sound output from the amplifier and when a single-ear mount type earphone is mounted to the telephone set main body unit, the gain of the amplifier is reduced to decrease the signal level of the sound output from the amplifier. Applicant's claim 1 comprises a particular combination, which is neither taught nor suggested by the prior art.

Applicant's independent method claim 8 recites, *inter alia*, the adjusting of a signal level of an ambient sound according to the earphone type when the ambient sound is superposed on the earphone, wherein the dual-ear mount type earphone is mounted to the telephone set main body unit, the signal level of the ambient sound is increased, and when the single-ear mount type earphone is mounted to the telephone set main body unit, the signal level of the ambient sound is decreased.

Accordingly, Applicant's claims are allowed for these reasons and for the reasons cited by the Applicant in the Amendments filed 1/28/2002 and 3/7/2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew C. Sams whose telephone number is (571)272-8099. The examiner can normally be reached on M-F 7:30-5.
